

## Peter Pan Comprehension Questions

Deep in the heart of London was the house where the Darling family lived. Wendy Darling shared a nursery with her two younger brothers, John and Michael.

One night, when the children were fast asleep, Peter Pan and Tinkerbell flew in through the nursery window. They had come to search for Peter's shadow. Just then, Wendy woke up. She was thrilled to meet Peter Pan and agreed to help him and Tinkerbell capture the mischievous shadow.

Wendy told Peter that tonight was her last night in the nursery because she was growing up. Wendy was to have a room of her very own. "Fly with me to Neverland," Peter urged. "You never have to grow up there!" Wendy agreed at once, as long as her brothers could come too!

So Peter told Wendy, John and Michael to each think a wonderful thought. Peter shook Tinkerbell over them, sprinkling them with magic pixie dust. Before they knew it, the excited children were soaring high above the rooftops of London. "We'll take the second star to the right and fly straight on until morning," Peter called leading the way.

**Answer the following questions using the text from the story above.**

1. Find three pieces of information about Peter's special friend.

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
