

Hello, year 1!

We hope you are all well. We have put together some activities for you to have a go at over the next week. Remember to take your time doing these, try to do a little bit each day rather than all at once. However, it is just as important for you to be doing other things such as: playing games, going outside, watching TV and spending time with your family. We have loved seeing some of the work that you are doing at home, so please feel free to email us directly (crowleesy1@gmail.com) with photos or copies of your work. Stay safe and keep up the super work.

Miss Price & Mr Snaddon ☺

English

This week's English tasks feature a number of different Spelling, Grammar and Punctuation (SPAG) tasks for your child to complete. They are as follows:

Lesson 1 – Finding conjunctions

Lesson 2 – Using conjunctions to join two sentences

Lesson 3 – Using question and exclamation marks

Lesson 4 – Create own sentences using question marks and exclamation marks

The above lessons have a worksheet to accompany each one and have been PINGed.

Additionally letter formation is a huge focus for us in year 1. **A letter formation document has already been PINGed to you, please refer to this.**

Spellings are still being updated on Spelling Shed, **please encourage your child to use this regularly**, we are using this to monitor how well your child is doing with each spelling pattern. You may need to click on 'more lists' to access this week's spellings.

Maths

Please complete the lessons below via the link. Watch the video guidance and then complete the activity, this could be printed off, written on paper or even just discussed.

The website has changed slightly, the videos can be accessed here

<https://whiterosemaths.com/homelearning/year-1/>

The corresponding activities can be accessed here:

<https://drive.google.com/open?id=1QaxeVz0kcDZrpSeqPP-JLAew2pQ0vpm>

Summer Term week 4 w/c 11th May:

Summer term week 4 lesson 1 – add by making 10

Summer term week 4 lesson 2 – subtract within 20

Summer term week 4 lesson 3 – add and subtract worded problems

Summer term week 4 lesson 4 – compare number sentences

Summer term week 4 – Friday maths challenge!

Maths activity mat 4 has been PINGed do you, please look through these questions with your child as they revisit topics from this year's learning. As always, there are many other activities available online for you to try, however please ensure these are tailored to **year 1 only**.

Please also encourage your child to use **NumBots** and **TTRockstars** regularly, it is being monitored as it gives us a great insight into how your child is doing. (Please only play garage/gig or arena as these questions will be automatically set by the training mode. Other options will be questions up to 12x12).

Topic

Art- Picasso

Key Question: Who is Picasso?

This half term we will be looking at portraits. Use the link below to read information about Picasso and look at some examples of his artwork (and others' interpretations). Think about the questions below and discuss:

- Picasso's art is abstract- what do you think this means?
- What colours do you notice Picasso used in his work?
- What do you like about his artwork?
- What do you dislike about his artwork?

Once you have had a look at the resources, see if you can create a portrait in the style of Picasso.

Science – The Human Body

Key Question: Which parts of the human body do I know?

This half term we are looking at and learning about the human body. Your science activity for this week is to draw a picture of the human body and label all of the body parts you know. This could be done on A4 paper or larger, with chalk outside on the floor, or in any other way you can think of. Label as many parts as you can then watch this video: <https://www.bbc.co.uk/bitesize/topics/z9yycdm/articles/zqhbr82#zpbjxs>

Once you have watched the video can you add any parts you have missed?

Suggested Websites

BBC Bitesize: Daily lessons are now available ranging across all subjects accompanied with videos and example work that children could do

<https://www.bbc.co.uk/bitesize/tags/zjpqqp3/year-1-and-p2-lessons/1>

Floppy's Phonics Online: continue to use the log ins PINGed out previously. There are hundreds of books for your child to read as well as some games for them to play using the books.

Teach Your Monster to Read: this app/website is free for a limited amount of time. We use this in school, it is great to practise phonics and tricky words.

Phonics Play: <https://www.phonicsplay.co.uk/> Access to all content on this website is now free, the username and password are on the website.

NumBots: play.numbots.com

This will boost addition and subtraction skills. Each child has a unique log in for this which has been sent out previously.

TTRockstars: this website focusses on *multiplication and division*, each child has their own log in which can be monitored at school (this is the same log in as for NumBots). It has been set to 'automatic training mode' which means that the children will be given a few different sums at a time, this will automatically change according to how well your child is doing. The more points they earn, the more they can buy for their avatar (similarly to Spelling Shed).

Go Noodle: (we use this regularly in PE and for active brain breaks) dino stomp, slow motion machine, hopscotch and wiggle it are class favourites!

Twinkl: you will find a range of home learning tasks, please choose ones which are appropriate for year 1

Topmarks website: find a range of learning games for your child
