

Year 3 – W/C 22nd June 2020

Hi Year 3,

Hope you are all okay, we are holding zoom meetings again next week, don't forget to email us to let us know if you would like to join us.

Dear Parents,

Here is this week's home learning: do as much as you can that fits in with your circumstances and your child – if you are prioritising, Maths, and English are the subjects we would suggest you focus on and your child reading a little each day if they can. We really enjoy receiving your emails and we are happy to answer any questions you have about the work we've set. We do our best to reply as soon as we can during the week.

English

Final week of 'Journey to the Jungle'

(The PDF was sent two weeks ago, it's also on the website if you don't have it)

Monday	Design Challenge: Decide what mysterious, rare thing would you love to see up close? What would tempt them out of their hiding place? On page 17, use the space to draw and label a trap to tempt your creature out of its hiding place.
Tuesday	Now plan your instructions. Imitate the language and structure of the instructions on pages 15 and 16 to help you write yours.
Wednesday	Write away! Use your plan and draft them on a separate piece of paper and don't forget to check the punctuation and flow.
Thursday	If you need to, carry on writing your instructions. We'd love to see your instructions, remember you can send them to us by email.
Friday	Play DJ cows phonics finder, choose a sound to practise and then find the words in the wordsearch https://www.ictgames.com/mobilePage/phonicFinder/index.html

- **Spelling:** Choose an activity from the Spelling Menu each day; complete this in addition to the English tasks. To access the PowerPoint for the new spelling pattern, use the google drive link.

Maths

White Rose

Summer Term - Week 8 (w/c 15th June)

Lesson 1 - Count sides and vertices on 2D shapes

All the resources are in the folder below

https://drive.google.com/drive/folders/1n97MqD-NCX_C-Da5PJV9Yd60Wxb4uHqg?usp=sharing

TT ROCKSTARS

10 games on garage.

You could use the 'Rockslam' section for a change. This means you can 'challenge' another player from Year 3. Go to the 'ROCKSLAM' tab, choose a player to challenge by clicking on their name. Then click 'start challenge match'. You don't need to be online at the same time as the person you are challenging. They will be able to see that they have been challenged when they next log in. There will be a red circle with a number in to show how many 'Rockslams' you have been challenged to. You could even challenge one of the **Year 3** teachers! (Please don't challenge any other teachers)

❖ NUMBOTS

Although Numbots starts very easy, over time it really will improve your child's mental arithmetic ability. We'd like them to play on it for 5 or 10 minutes a day, by doing this you will also see they become quicker at completing calculations for the 4 formal methods. You can access it through TT Rockstars, click 'story,' see how many coins you can earn so you can buy new parts for your robot, you could send us a picture of your robot so we can see what it looks like. We can see from our Stats some children are making super progress – so well done to you!

❖ Suggested Websites

This game will help you practise calculating subtractions as **difference** by using **The Bar Model**.

Choose numbers up to 20 then 50

Click on resources then National Curriculum. Scroll down the page to Year 3 Programme of Study. For each of the below, there are worksheets and online games to help develop your child's understanding.

Topic

Geography

Thank you to all those children who have sent your work on England, Germany and Russia we've loved looking at what you have created and what facts you have found out.

Over this half term we would like your child to look at six different countries.

This week's country is **The United States of America**

For each country the children need to:-

- Find the country using a map, an atlas or a globe.
- Know its capital city and the continent it's in.

Look at the Human Geography

Famous landmarks and buildings

Trade

Language spoken

Tourism

Look at the Physical Geography

Mountains, rivers, seas, coasts, forests

Weather

Are there any interesting facts you can find out?

This week your child can also compare The United States of America to England....

- **Look at the human and physical geographical features of the country and compare them to England - what is similar and what is different?**

How they present it is up to them, they could do a PowerPoint, a booklet, a poster, a leaflet. Each week could be a different format or you could keep adding on to build it up. Feel free to send us photos of what they have done, this is a brand new unit so we'd love to know how the children are doing with it. On the next page is a list of Geographical vocabulary they should become familiar with as the topic progresses.

There are two PowerPoints saved on google drive that should give the children lots of information to help them.

<https://drive.google.com/file/d/1fiN86kmsvb3rYU8MADTsyShq3wtRAjsu/view?usp=sharing>

The following website also has some useful information on it

<https://www.kids-world-travel-guide.com/kids-trivia.html>

Vocabulary

Atlas	Book of maps
Capital city	The city where the government sits
City	A large town
Climate	Weather that is typical of that place
Continent	A large area of land that consists of countries
Compass points	Any of the main points of a compass: N, S, E, W, NE, NW, SE and SW
Country	An area of land that is controlled by its own government
Equator	An imaginary line around the middle of the Earth at an equal distance from North and South pole
Island	A piece of land completely surrounded by water
Human features	Features of the land that have been affected by humans
Humid	A climate that is very hot and damp
Oceans	One of five large areas of salt water on the Earth's surface
Physical features	Natural features of land
Population	All the people who live in a country
Temperature	A measure of how hot or cold a place is
Tectonic	Relating to the structure of the Earth's surface or crust (Covered when we looked at volcanoes)
Sea	A large area of water that is part of an ocean
Vegetation	Plants, trees and flowers

Science

Following your task last week to sort objects into 3 categories - Transparent, Translucent or Opaque – we would like you to read a short story of Peter Pan and conduct an experiment to help him make a new shadow.

Learning outcome: How are shadows formed.

Experiment: Using a range of materials, decide which is most suitable for Peter Pan's shadow. Read the criteria carefully, he wants the darkest shadow possible. Which will you use?

Task: Write a letter to Peter Pan to explain how he can make a new shadow and which is the best material to use.

Use the google drive link below to access the PowerPoint. Notes below the PowerPoint provide the short story of Peter Pan to begin the activity.

<https://drive.google.com/file/d/13Sz1Qmopus4eRKVupa84wACZIIzZuUd/view?usp=sharing>

ART

This half term, we are focusing on **Flowers**.

A famous artist, Vincent Van Gogh produced 'Sunflowers' which we will look at to model our final piece on.

WEEK 4: This week we are focusing on the artistic style of: Pointillism. The PowerPoint on google drive will give you more information and tasks.

Task for this week: Use Pointillism to create a shade – see website link below:

<https://www.artinstructionblog.com/pencil-shading-technique-how-to-shade-a-drawing-using-pointillism>

More art: GET CREATIVE!

Create a pointillism picture using a cotton bud and paint, or you could use felt tips if you don't have any paint. It could be of anything you like. Try to use the skills you have learnt to create shade on your picture.

<https://drive.google.com/file/d/1X91o9T6bziS9gCfQIAPTZm00De9SNgrm/view?usp=sharing>

In addition, it is important that your child:

- Reads an age appropriate book daily - at least 20 minutes.
- Practices their phonics – phase 4, 5 tricky words and year 2 and 3 common exception words.
- Exercises regularly – <https://app.gonoodle.com/> Gonoodle is an excellent free website (you have to sign up for a free account) that provides videos for exercise. We use this regularly in Year 3 – your child will have their favourites! They could even create their own 'Gonoodle' to a favourite song! Joe Wicks is also doing a PE fitness session at 9am Mon-Fri via his channel on YouTube – The Body Coach TV.
- Practises handwriting weekly – they could write out their spellings or a favourite poem or song

BBC Bitesize Daily lessons

<https://www.bbc.co.uk/bitesize/articles/zn9447h>

From 20 April, you'll be able to access regular daily lessons in English and Maths, as well as other core subjects, in an expanded version of our website and also on special programmes broadcast on BBC iPlayer and BBC Red Button. BBC iPlayer and the Red Button service will host Bitesize Daily. These are six different 20 minute shows, each designed to target a specific age group, from ages five to 14, and for pupils throughout the UK. Experts and teachers will be involved, covering what should be learned that day for the different year groups and key stages. Maths, Science and English will be covered in dedicated programmes, and other subjects such as History, Geography, Music and Art will also be covered.

Take care of yourselves and keep safe

From Miss Smith and Mrs Dook
